“ *My sympathy to the Hervin family. I will always remember the hot, summer afternoons with Nick catching in front of me, while I was umpiring his games. I'll never forget our conversations during the games. Nick really understood the game of baseball and knew how to play it, properly! I'm glad I could call him my friend. He will be missed!!*

“ *I heard the news yesterday and talked with several Richmond Royals baseball players that played with Nick. We are so sad to hear this news. I was fortunate to play ball several years with Nick. “ Oh Nick. There truly are no words. I'm a better person having met you. Blessed to have had you in my life for roughly 15 years. The banter, smartass remarks and softball will forever be etched in my heart. Fly high my friend. Fly high.

“ Nick was one of first new players I met my first year helping coach Cougar baseball after I graduated the year before. Everyone immediately noticed his distinctive laugh and infectious smile. Nick became a good friend over the course of that first season and continued to this day nearly 15yrs later. He had an amazing personality and the ability to talk to and relate to everyone he met (as evidence by his numerous friends). My wife and I extend our deepest sympathies to the Hervin family. There is a large void in the Cougar Baseball Family and Morris community that can't be healed or replaced.

Nick was one of the first friends I made in college. He was an amazing individual and a true friend. He personified the saying, "having a heart of gold." He will be forever missed

“ Hervin Family,

I was devastated to hear about Nick's passing. I got to know him over the past five years, both as a parent of one of his UMM ballplayers, and on the field during amateur baseball. I coach a team that has numerous other former UMM players who were influenced and mentored by Nick, not just as hitters, but as men. We are grieving with you, and are so sorry for your loss.
